The time period for reply, if any, is set in the attached communication.

<b>Office Action Summary</b>	<b>Application No.</b> 10/795,810	<b>Applicant(s)</b> HIRATA, YUTAKA	
	<b>Examiner</b> Anthony D. Barfield	<b>Art Unit</b> 3636	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

## DETAILED ACTION

### *Reissue Applications*

1. The reissue supplemental oath/declaration filed with this application is defective because the error which is relied upon to support the reissue application is not an error upon which a reissue can be based. See 37 CFR 1.175(a)(1) and MPEP § 1414.
2. The reissue supplemental oath/declaration filed with this application is defective because it fails to identify **at least one error** which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414. Applicant is reminded that the original error identified in the previous oath/declaration is no longer applicable.
3. The reissue supplemental oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to **currently** support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.
4. The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following: The error originally identified is no longer applicable as that error can not be used as a grounds to support the reissue.
5. Claims 1-2 are rejected as being based upon a defective supplemental reissue oath/declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the oath/declaration is set forth in the discussion above in this Office action.

### *Response to Arguments*

6. Applicant's arguments filed 5/28/10 have been fully considered but they are not persuasive. In response to applicant's argument that the "*Board decision indicated that Fontaine*

Art Unit: 3636

*does not disclose the "pressure sensitive sheet sensor" and the "slit."....as confirmed by the Decision on Appeal, it is submitted that claim 11 was unnecessarily limited",* applicant is reminded that in terms of a "Reissue Application", that the decision as to whether there is no valid "prior art rejection" or that the claims were rendered allowable over the prior art due to the prior art lacking certain limitations are rendered moot, as the rejections are totally based under 35 U.S.C. 251 guidelines, which clearly outlines that at least one proper error needs to be identified in order to establish the grounds for a reissue application. The opinions and decisions rendered by the Board of Appeals do not warrant "grounds" for establishing a proper error applicant is directed to CFR 1.175(a)(1) and MPEP § 1414 for what constitutes grounds for a proper error. Finally, it is reiterated again that upon the allowance of the original claims applicant had surrendered certain rights and features which bind the claimed invention, i.e., rear slit must be featured in the claims of the reissue application.

### ***Conclusion***

7. This is a Request for Continued Examination (RCE) of applicant's earlier Application No. 10/795,810. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO

Art Unit: 3636

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
